

An impressionistic painting of a street scene. In the upper center, a large, reddish-brown hot air balloon hangs from the sky. To the left, a yellow building with a red roof and a small window is visible. In the center, a street lamp stands on a sidewalk. To the right, there are large, dark green trees. The overall style is soft and painterly, with visible brushstrokes and a muted color palette.

### *Our Volunteers*

Our Volunteers are the cornerstone of our business. Without them, we would not be able to open our doors. They are the ambassadors to our visitors and we are very grateful for every hour they spend at the Center. They provide support not only in the Gallery, Gift Shop, and History Museum, but in other areas as well. They help maintain the landscaping and facilities. They plan our events and fundraisers, including gathering community support with donations of food and prizes. Our volunteers are managed by Flynn Gentry-Taylor who works hard to make sure each member is trained and has everything they need to perform the necessary tasks required.
